# proQuick clips

Cross reference list 2025

## All the advantages of proQuick clips at a glance

- Simple installation to walls, ceilings and steel constructions using anchors and bolts
- Easy push-on installation for profile rails with 11 mm slot width
- Can be lined up together up to size PQ-32, compatible with the entire range of Quick clips
- Lined up clips do not necessarily have to be fixed in the substrate
- High degree of flexibility for a variety of applications
- Optimised clip grip for better pipe hold
